

course

```
graph TD; course[course] --- phoneapp[phoneapp]; course --- examples[examples]
```

The diagram consists of three nested rectangular boxes. The outermost box is light purple and contains the text 'course' at the top. Inside this box is a medium purple box. Inside the medium purple box is a white box on the left containing the text 'phoneapp', and to its right, the text 'examples' is placed within the same medium purple box.
